Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

In response to this requirement, please agree or disagree to the stipulation of each of the following assertions of facts:

The information is required to complete the background description in the disclosure by documenting any and all information related to the disclosure of the prior art admitted to in the background of the invention. This may include but not limited to figures, drawings/diagrams, prior patents and/or any type of written disclosure that pertains to Prior art "tank shrouds" set forth in the background of the invention.

In responding to those requirements that require copies of documents, where the document is a bound text or a single article over 50 pages, the requirement may be met by providing copies of those pages that provide the particular subject matter indicated in the requirement, or where such subject matter is not indicated, the subject matter found in applicant's disclosure.

The fee and certification requirements of 37 CFR 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 CFR 1.105 that are included in the applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement

under 37 CFR 1.105 are subject to the fee and certification requirements of 37 CFR 1.97.

The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained may be accepted as a complete reply to the requirement for that item.

This requirement is an attachment of the enclosed Office action. A complete reply to the enclosed Office action must include a complete reply to this requirement. The time period for reply to this requirement coincides with the time period for reply to the enclosed Office action.

This Office action has an attached requirement for information under 37 CFR 1.105. A complete reply to this Office action must include a complete reply to the attached requirement for information. The time period for reply to the attached requirement coincides with the time period for reply to this Office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-3, 8-10, 13-15 and 19 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admitted prior art (AAPA, as disclosed in the background of invention).

AAPA discloses an air tank enclosed in a shroud of an air compressor of conventionally known tolerance, shroud ribbing that firmly hold air tanks in place (Background of invention Page 2 and 3).

It has some tolerance but not as desired by the applicant.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-7, 11-12, 16-18, 20-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in view of Jackson (U.S. Patent number 2,329,765).

AAPA does not disclose the details of the ribbing structure. Jackson discloses a ribbing structure that has a first group of ribs in a first direction and a second group of ribs in a second direction (44 and 46, Figure 1); where first direction (44) is perpendicular to said second direction (46); wherein said first group of ribs (44) intersects said second group of ribs (46, as shown in figure 1); support member (52) is in contact with one of said first (44) group of ribs and one of said second (46) group of ribs and it is symmetrically positioned (Figure 1). It would have been obvious to one of ordinary skill in the art at the

time of invention to modify AAPA in view of Jackson to provide a container to hold fluids
(Col. 1 ll. 29-41)
